What makes  
**Carron**

The Name  
for Baths?

Carron Bathrooms have been around for generations. Making baths to such a high standard that we have become known as the UK's leading bath manufacturer.

We stake our reputation on the quality of our products, which is why we're the UK bath brand that the trade recommends.

### **What does this mean for you?**

At Carron, comfort and quality go hand in hand. We create baths that are reliable and comfortable and bring an air of luxury to your bathroom. And we believe there is no better bath for the money.

**That's why we're  
The Name for Baths.**

# Carronite™

The reassurance you deserve.

What is Carronite™ and why do we recommend enhancing your bathing experience with our trade marked reinforced finish.

They say still waters run deep, and when you opt for the Carronite™ finish on your Carron bath, it's what you can't see that makes all the difference.

Developed in the 1990s for high-end and hard-working baths for the hotel industry. Over time, our product designers realised they had created a product with some real-world and very luxurious benefits.

 carronite™

# What is Carronite™?

## THE ORIGINAL AND BEST.

When Carronite™ was developed, it was the first of its kind. Now, more than 30 years later, it is still the market-leading reinforced bath finish.

## A WARMER, MORE LUXURIOUS SOAK!

Due to the extra finishing layers, Carronite™ baths can keep water temperature levels hotter for longer. Up to thirty minutes longer in some tests.

## A STRONGER, MORE RIGID BATH.

All Carron baths are robust, sturdy and well-built. But the increased strength delivered by the unique Carronite™ finish brings added strength and quality.

## 30-YEAR GUARANTEE.

When it comes to Carronite™, we're willing to put our money where our mouth is. This is why every Carronite™ bath is backed by a proven 30-year guarantee.

# Carronite™ Benefits

## CARRONITE™ BEATS THE COMPETITION, HANDS DOWN.

Carronite – Tried, Tested, Trusted. We've refined our Carronite finish over the last 30 years, and its strength, stability and reliability have stood the test of time. Our experience in manufacturing gives you the best bathing experience.

## KEEPING THE ENVIRONMENT IN MIND.

When a full bath keeps its heat for longer, there's less need to top it up with hot water. That's better for your gas bill and the environment.

## MADE IN BRITAIN.

All our baths are handmade at our factory in Falkirk, just as they have been for over 40 years. We're passionate about British manufacturing and making all our baths in-house results in a product you can rely on.

## THE CHOICE OF THE PROFESSIONAL.

Plumbers and installers need a job to go smoothly. This makes Carronite™ baths the ideal choice as the consistent quality is something professionals can rely on.

# BATH FEATURES EXPLAINED:

## Types of bath.

### **RB** Rectangular Bath

The most common bath type. This 'back to wall' bath is usually fitted in a corner, can be either single or double ended, and will take both L-Panels and our standard Front and End panels.

### **SE** Single End

Also described as 'SE', these baths have a tap ledge at one end of the tub.

### **DE** Double End

Double End or "DE" baths have a dedicated space for taps on the back ledge of the bath. This allows you to comfortably lie either way while bathing.

### **SB** Showerbath

These baths have a dedicated showering area, usually with a flatter base for added comfort and space. Many follow the 'P-shape' style to create more room at the head of the bath.

### **CB** Corner Bath

With a more equal width and length, Corner baths are designed to take up less floor space and are a great option where space is an issue.

### **FS** Freestanding Bath

The last word in statement baths, Freestanding baths do not need to be fitted to a wall and can be positioned anywhere as they are designed to be seen from all sides.

## Bath features.

### **C** Carronite™ available see p8

Our Carronite™ finish delivers a superior bathing experience. Read more about Carronite on page 8 and find out why you deserve the ultimate bathing experience.

### **P** Panel available see p90

Most Carron baths are compatible with our seamless L-Panels and our standard Front and End panels. All bath panels have the option of a Carronite™ upgrade.

### **SS** Shower Screen available see p94

Some bath designs don't allow for shower screens, so we've indicated which models are compatible. Our screens are made especially for Carron, with many of our Showerbath screens custom-designed for a perfect fit.

### **W** Whirlpool Systems ①②③④⑤⑥ see p12

A range of Whirlpool systems are available, and we've highlighted which of our models can accommodate one of these luxurious additions.

\*This offer, based on a Linea 1900 x 900, would be worth a potential saving of £697.20 (in-VAT) at retail prices, allowing your customer to benefit from all of the additional strength of a Carronite™ bath with its 30 year Warranty.

# C-Lenda Whirlpool Systems

The C-Lenda Whirlpool system is the most technologically advanced system available on today's market. This unique jet system has been designed by Markon in New Zealand and ensures the most comfortable bathing experience. Almost all baths in the Carron range are compatible with this whirlpool system and are made to order by our skilled technicians at our factory in Falkirk.

# Traditional

## RANGE

At Carron, not every bath range makes a modern design statement. We have a wide selection of baths aimed at traditional and period interiors. One of our most premium ranges, Highgate, has a strong Art Deco theme. While longstanding favourites such as the Imperial and Swallow baths take their design cues from Victorian and mid-century styles.

### Features.

Our traditional range covers all bath types including freestanding and showerbath models.

Imperial and Swallow baths come with handgrips for added accessibility.

The stunning roll top, Ascoli freestanding bath can be personalised with our ColourMatch service.

Range of complementary bath panels, including L-Shaped panels.

# Eco & Accessible

## RANGE

Within some of our Signature Ranges, we have several baths that add a little extra accessibility and functionality. These models also benefit from being more environmentally friendly as their reduced depth, which provides easy access, results in you needing less water to fill them. These features result in lower running costs and less impact on the environment.

### Features.

Ease of access through reduced bath depth.

Smaller and unique shaped models for smaller bathrooms.

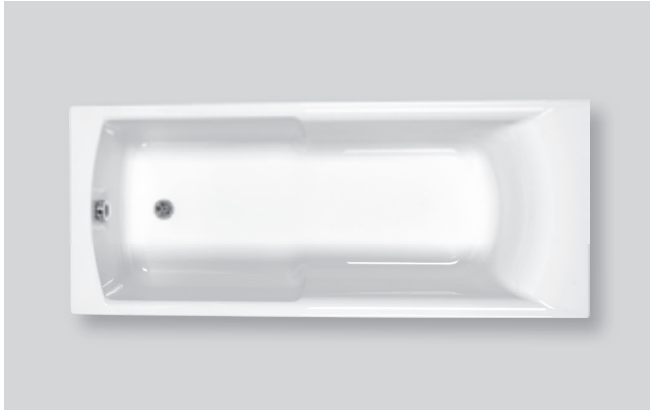

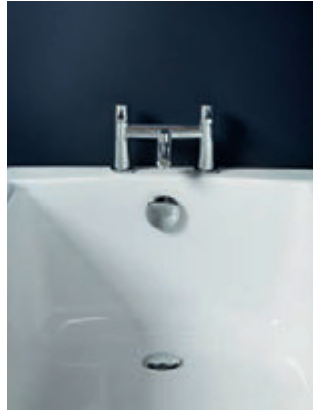

Hand grips and reduced depth with the Quantum Integra Eco.

Range of complementary bath panels, including L-Shaped panels.

### Bath Sizes.

# Showerbaths

Carron Showerbaths deliver both practicality and flexibility. If your bathroom doesn't have the space for a separate shower and bath but you want a superior showering experience, a showerbath could be the answer to your problems.

## Features.

All showerbaths feature a dedicated showering area with flat base for extra comfort.

Our showerbaths don't just stop at the standard 'P Shaped' design. Many of our models like the Profile and Highgate make a statement in their own right.

The Status Showerbath is designed to replace a standard corner bath without having to refit the entire bathroom.
